

# KATE OSBORNE

BUSINESS COACH

SPEAKERS KIT

Kate Osborne has dedicated her career to working with small businesses and franchises helping them shine, shift mindsets and drive change.

Tapping into her unique methodologies “Symphony of Life” and the Epi-Collective model, Kate helps her clients embrace their rhythm, find their confidence and transform their lives, because she believes business is more than the day-to-day operations, it is all the pieces of life that make up a person.

Her life experiences – being mentored by one of the world’s richest men, travelling to over 50 countries, owning two highly successful Fight Centres, nurturing and raising three children, a happy marriage, and all the scrapes and bruises from the times that did not go according to plan – are what drives her vision and mission to develop successful leaders.

Kate is an engaging and exceptional story teller, taking the listener on a journey through the magic she weaves with her real life analogies and compelling delivery. She holds the room in the palm of her hand, shifting thinking, changing perspective. Not only because she speaks the truth but you know she understands what it means to be a human being,, to juggle life and work, to strive for success and to learn lessons, sometimes the hard way.

RESILIENCE EMPOWERMENT SOUL MODEL
